Dear

This is a request under The Freedom of Information Act for details on the informational, educational and public affairs activities of your department or agency.

We would like to know how many information specialists are in the agency. What is the total payroll for employees involved in public information, communications and educational programs? What is the budget for these activities? How many monthly and weekly periodicals did this agency produce in the past year? How many movies? How much broadcast time and how many TV and other ads were produced, at what cost? How many speakers did this agency send out last year?

It is our belief that this information, and any pertinent documents, should be made available to us without charge because the release would be in the public interest.

If you need any clarification of this request, please don't hesitate to telephone John S. Lang or me at 333-7400.

Sincerely yours,

Ben F. Phlegar
